

Index

- algal biotoxins 72, 574, 608, 623
- agile antechinus (*Antechinus agilis*) 359, 360, 369
- agile wallaby (*Macropus agilis*) 134, 143, 157, 161, 201
- allied rock-wallaby (*Petrogale assimilis*) 143, 157
- animal health 3–8
- animal welfare 2–3
- Antarctic fur-seal (*Arctocephalus gazella*) 541, 542, 543, 546, 559–61
- antelope kangaroo (*Macropus antilopinus*) 135, 143, 144, 159, 201
- arthropods, parasite collection procedure 640–1
- Australian bat lyssavirus (ABLV) 3, 5, 9, 55, 60, 65, 67, 470, 485–9, 495, 535
- Australian fur-seal (*Arctocephalus pusillus*) 541, 542, 543, 546, 559–63
- Australian sea-lion (*Neophoca cinerea*) 541, 542, 543, 546, 559–63
- avian influenza 3, 5, 55, 573

- bacterial diseases 95, 185–91, 221–2, 285–99, 348–9, 422–4, 453–4, 490, 535, 606–7, 622
- Baermann examination 172, 351, 535, 641, 643
- banded hare-wallaby (*Lagostrophus fasciatus*) 134, 135, 141, 143, 144
- bandicoots
 - anaesthesia 446
 - anatomy 440–1
 - bacterial diseases 453–4
 - biochemistry 446–7
 - biology 439–40
 - bladder distension 449
 - capture 445–6
 - cardiopulmonary diseases 451–2
 - chemical restraint 446
 - clinical pathology 446–8
 - degenerative diseases 459
 - dermatological diseases 449–50
 - diet of captive animals 445
 - diseases 449–60, 519, 652–3
 - distribution 439–40
 - ectoparasites 454
 - endoparasites 454–5
 - gastrointestinal diseases 450–1
 - genitourinary diseases 452
 - haematology 446–7
 - hand-rearing 13, 15, 16, 23, 448–9
 - helminths 454–5
 - housing 443–4
 - husbandry 443–4
 - immune system 16
 - individual marking and identification techniques 44
 - infectious diseases 453–7, 519
 - liver diseases 451
 - maternal care 15
 - neonates 13, 23
 - neoplastic diseases 457
 - non-infectious diseases 457–60
 - nutrition 444–5
 - ophthalmologic diseases 452–3
 - pancreatic diseases 451
 - parasitic diseases 454–7, 652–3
 - physical restraint 445–6
 - physiology 440–1
 - protozoa 455–7
 - reproduction 442–3
 - restraint 445–6
 - rickettsial diseases 519–20
 - surgery 460
 - taxonomy 439–40
 - therapeutics 460
 - toxic diseases 459–60
 - toxoplasmosis 456–7
 - transport 444
 - trauma 459
 - venipuncture 446–7
- bare-backed fruit-bat (*Dobsonia magna*) 466, 469, 471
- bat necropsy protocol 67–8
- bats
 - allergies 480
 - anaesthesia 474–5
 - anatomy 465–9
 - Angiostrongylus* 491
 - Australian bat lyssavirus (ABLV) 3, 5, 9, 55, 60, 65, 67, 470, 485–9, 495, 535
 - bacterial diseases 490
 - biochemistry 476
 - biology 465
 - caesarean section 498
 - cardiovascular diseases 483–4
 - cardiovascular system 469
 - carnivorous 472–3, 479–80
 - castration 498
 - chemical restraint 474–5
 - clinical pathology 476–7
