

## *List of contributors*

**Lynne Armitage** is an Associate Professor of Urban Development at Bond University. She came to this position from a background in chartered surveying, urban studies and environmental planning. One of her major research interests is in determining the value of heritage properties.

**Bhishna Bajracharya** is an Associate Professor of Urban Planning at Bond University. He received his PhD and Masters degree in Urban and Regional Planning from the University of Hawaii and his Bachelor in Architecture degree from the School of Planning and Architecture, Delhi University. Bhishna has conducted research on master-planned communities, smart cities and knowledge-based urban development, disaster management, sustainable campus, transit-oriented development and urbanisation in Asian countries.

**Shelley Burgin** was one of the first new-age, mature-aged females to enter university life in the mid 1970s. Her undergraduate degree was gained in the first environmental science program in Australia, at Griffith University. Her Master's degree was undertaken in Papua New Guinea, on crocodiles. Her PhD was on evolutionary genetics. Today Shelley is an Emeritus Professor, University of Western Sydney and Professor of Environmental Science and Management, Bond University.

**Simon Grigalius** is a celebrity chef and a graduate of the new discipline of sustainability science. In his spare time he is undertaking research for a higher degree at Bond University. His goal is to ascertain how better links can be made between his two passions, food and sustainable food production.

**Tor Hundloe** is a pioneer of environmental education and an author of several books in the field of sustainable development, economics and natural resources. In 2003, he was made a Member of the Order of Australia for his contribution to coastal zone management, eco-tourism, protected area management, environmental economics, and fisheries. In the same year he was awarded a Centenary Medal for education. In 2010, he received the United Nations Association of Australia Individual Award for outstanding service to the environment. Tor is presently a Professor at Bond University, an Emeritus Professor, University of Queensland and an Adjunct Professor, Griffith University.

**Isara Khanjanasthiti** is a Teaching Fellow in town planning at Bond University. His research interests include smart cities and planning at the airport and community interface. He is currently undertaking a doctoral study on the economic contributions of airports in non-capital cities.

**Bridgette McDougall** is a graduate from Bond University and is a Tutor in the field of sustainability science while she pursues a higher degree in environmental education. Her
