Journal Mission and Scope

The Auk: Ornithological Advances is an international, peer-reviewed journal that publishes original research and scholarship advancing the fundamental scientific knowledge of bird species and broad biological concepts (e.g., ecology, evolution, behavior, physiology, genetics) through studies of bird species. Articles often introduce or employ innovative empirical and theoretical approaches and analyses.

Topics covered in the journal include:

- Evolutionary history and paleontology
- Systematics and nomenclature
- Behavioral ecology
- Foraging strategies and tactics
- Population biology and ecology
- Molecular ecology
- Community and landscape ecology
- Migration and orientation
- Spacing patterns and habitat use
- Genetics and genomics
- Epigenetics, and evolutionary development
- Physiology and biochemistry
- Morphology and anatomy
- Integrative and cross-disciplinary studies
- Theoretical and methodological advances
- Thematic reviews and opinion pieces

Journals of the American Ornithological Society

The American Ornithological Society publishes two peer-reviewed, international journals of ornithology. The Auk: Ornithological Advances focuses on basic ornithological science. The Condor: Ornithological Applications focuses on applied ornithological study. The redefined, separate missions of the journals in 2014 created an opportunity for them to work together to publish the best science in basic and applied ornithology and to build on their long histories as top journals in the field of avian biology.

On the Cover: The Bahia Tapaculo (Eleoscytalopus psychopompus) in the Atlantic rainforest, Michellin Reserve, Ituberá, Bahia, Brazil, December 2011. In this issue, Moraes et al. (pp. 1009-1019) suggest that the Bahia Tapaculo is vocally and morphologically distinct from the Whitebreasted Tapaculo (E. indigoticus). Photo by Andrew Whittaker/Birding Brazil Tours

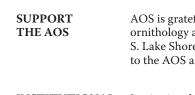

Journal Information: The Auk: Ornithological Advances publishes original research and scholarship advancing the fundamental scientific knowledge of bird species and broad biological concepts (e.g., ecology, evolution, behavior, physiology, genetics) through studies of bird species. Appropriate topics include documentation, analysis, and interpretation of laboratory and field studies; theoretical or methodological developments; and reviews of information or ideas. Authors are encouraged to write papers from the perspective of general concepts and theories and to consider the relevance of their findings to taxa in addition to birds. Contributions are welcomed from around the world but must be written in English. The Auk was published from 1884 to 2016 by the American Ornithologists' Union (AOU), and as of 2016 is published by the American Ornithological Society (a merger of the AOU and the Cooper Ornithological Society). The Auk became The Auk: Ornithological Advances in 2014. The articles in this journal reflect the research and opinions of the individual authors. As such, the articles do not necessarily reflect the opinions of the editors or any official policy of the American Ornithological Society.

Submit manuscripts online at www.editorialmanager.com/auk. Author instructions are at http://americanornithologypubs.org/page/instructions.

Copying and permissions notice: To obtain rights and permission to reprint papers, figures, tables, etc., or parts thereof, previously published in The Auk and The Auk: Ornithological Advances, contact the Publications Office at AOSpubs@AmericanOrnithology.org.

Abstracting and Indexing: Articles appearing in The Auk: Ornithological Advances are abstracted and indexed in the databases listed online at www.AmericanOrnithologyPubs.org.

The Auk: Ornithological Advances is published weekly online (ISSN 1938-4254) by the American Ornithological Society, 1400 S Lake Shore Drive, Chicago, IL 60605. Print copies (ISSN 0004-8030) are available from Sheridan Press at http://aos.sheridan.com

INSTITUTIONAL Institutional subscriptions are handled by the American Ornithological Society, 1400 South Lake Shore Drive, Chicago, IL 60605, 312-665-7571, 312-883-4114 FAX, cruiz@americanornithology.org. \$400 for an annual online subscription to The Condor: Ornithological Applications, \$400 for an annual online subscription to The Auk: Ornithological Advances, and \$700 for both The Condor: Ornithological Applications and The Auk: Ornithological Advances.
