When *Chiloscyphus alpicola* J.J.Engel was described it was placed in a section together with *Chiloscyphus aperticaulis* J.J.Engel, which in the concept used in Söderström et al. (2016; WCL) is included in *Lophocolea*. There exists no combination for *Chiloscyphus alpicola* in *Lophocolea* (Dumont.) Dumort. Thus the new combination is needed.

*Lophocolea alpicola* (J.J.Engel) L.Söderstr. et A.Hagborg, comb. nov. Basionym: *Chiloscyphus alpicola* J.J.Engel, Phyto-taxa 207(2): 181, 2015 (Engel 2015). Holotype: New Zealand, South Island, Nelson Prov., Nelson Lakes Natl. Park, E slope of Robert Ridge in vicinity of Mt Robert Skifield, W
